SLICE-RS: PRECONFERENCE/NETWORKING

This year, we are proud to announce that CAL FIRE and CAL FIRE Local 2881 have partnered with the International Association of Women in Fire and Emergency Service (iWomen) for its 2016 conference in Sacramento, California. iWomen is an organization whose goal is to provide a proactive network that supports, mentors, and educates current and future women in the fire and emergency services.

This is an excellent opportunity for employees within CAL FIRE and women across the country who may be interested in careers in public service to come together and share their experiences. CAL FIRE and CAL FIRE Local 2881 are very excited to showcase the opportunities that our Department has to offer. CAL FIRE will be hosting numerous training modules at its CAL FIRE Academy, such as ventilation, forcible entry, wildland firefighting, SCBA confidence course, plus other instructional classes.

CAL FIRE and CAL FIRE Local 2881 support a diverse workforce, and have been leaders in the fire service community in supporting equal opportunity for those interested in a career in the fire service and public service.
