

California Statewide Fire Summary

Saturday, June 27, 2015

CAL FIRE has increased staffing due to forecasted dry lightning and strong winds throughout much of northern California. Today nearly 3,300 firefighters remain on the frontlines of four large active wildfires burning in California.

A Red Flag Warning has been issued for much of Northeast California, including the Northern Sierra and Tahoe Basin, due to high heat, strong winds and the possibility of dry thunderstorms with lightning. While all residents are urged to be cautious outdoors to prevent sparking a wildfire, those in the Red Flag Warning area must take extra precautions. Learn more at www.ReadyforWildfire.org.
