Land Conservation /Wildlife/Fisheries Projects³	Cost based on problem. Use EQIP rates as a guide		

¹ The 90% rate will cover all projects on substantially damaged timberland by wildfire, insects, diseases, wind, floods, landslides or earthquakes.

² Disposal of slash must meet minimum Fire Hazard Reduction Standards per Forest Practices Act.

³ Maximum allowable costs do not appear for land conservation or habitat improvement. In these categories activity is variable and will depend on site condition, acreage, and/or type of project. However, costs will be evaluated based on rates used for SIP or EQIP.
