Moderate	\$595.00	\$535.50	\$446.25
Heavy	\$850.00	\$765.00	\$637.50
Land Conservation/Wildlife/Fisheries Projects <sup>3</sup>		Cost based on problem. Use EQIP rates as a guide	

The 90% rate will cover all projects on substantially damaged timberland by wildfire, insects, diseases, wind, floods, landslides or earthquakes.

<sup>2</sup> Disposal of slash must meet minimum Fire Hazard Reduction Standards per Forest Practices Act.

<sup>3</sup> Maximum allowable costs do not appear for land conservation or habitat improvement. In these categories activity is variable and will depend on site condition, acreage, and/or type of project. However, costs will be evaluated based on rates used for SIP or EQIP.
