PROJECT DESCRIPTION

The project scope is the chipping of brush by CAL FIRE handcrews. The material is created from community members performing hazardous fuel reduction on their properties, the material is then moved to a centralized location to be chipped. The Southwest Fire Safe Council is the project sponsor and is funding CAL FIRE's handcrews activities for this project. The area is known for previous fire activity and is densely populated. This activity supports the current Community Wildfire Protection Plan (CWPP) in place.

The brush will be collected and transported by the community members from private parcel to - 38195 Calle De Lobo, Murrieta, CA 92562 – in the Santa Rosa/Tenaja community in southwest Riverside County. The chosen location is a flat portion of the mentioned parcel with existing dirt roads on site. A large section of bare earth, approximately half acre, will be used as the chipping site. Work will be confined to this area and to the existing roads to minimize ground disturbance. No heavy equipment with the exception of the chipper shall be utilized by crews during treatment of this material. All generated chips will be collected in a bin to be used by CAL FIRE facilities.
