Project Description: (please use a separate page if necessary)

The PTEIR is a joint environmental impact report and environmental impact statement pursuant to NEPA in collaboration with the U.S. Fish and Wildlife Service and the National Marine Fisheries Service. The CEQA project includes all aspects of MRC's timber operations on its timberlands in Mendocino County. Those operations include the silvicultural methods, harvesting practices, erosion control measures, site preparation measures, watercourse protection measures, hazard reduction measures, fire protection practices, wildlife protection measures, and construction, reconstruction and maintenance measures for logging roads, landings, and watercourse crossings used as part of MRC's timberland management activities.
